### DEFINITION OF TERMS

#### SPECIAL REVERSED CHARGE TOLL SERVICE

A service plan by which a customer can offer his out-of-town customers in selected exchanges the privilege of calling him without payment of toll charges and without having to request that charges be reversed.

#### STANDARD NETWORK INTERFACE

- a. The Standard Network Interface is a standard Registration Program jack or equivalent provided by the Company as a part of exchange access, WATS, or Private Line services.
- b. The Standard Network Interface will be located inside the subscriber premises or as designated by the Company.
- c. All premises services will connect to the telecommunications network through the Standard Network Interface.

For existing installations, the protector or point where facilities enter a customer's premises is to be established as the end of such services. Going forward, a Company-provided standard Registration Program jack is to be used as the point of connection to the telecommunications network. All newly constructed customer premises will be provided with a Standard Network Interface.

#### SUSPENSION OF SERVICE

An arrangement made at the request of the customer, or initiated by the company for violation of tariff regulations by the customer, for temporarily discontinuing service without terminating the service agreement or removing the telephone equipment from the customer's premises.

#### SYSTEM

GENERAL REGULATIONS

2.1 Application

The regulations specified herein are applicable to all communication services offered in this tariff by Hargray Telephone Company, Inc., hereinafter referred to as the Company. Additional regulations, where applicable, pertaining to specific service offerings accompany such offerings in various Sections of these Tariff.

2.2 Limitations and Use of Service

2.2.1 Use of Customer's Service

- a. Telephone facilities are furnished for the use of the customer employees, agents or representatives of the customer or members of the customer's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended, in addition to other services which may be separately ordered, to joint users, patrons of hospitals or of hotels, members of clubs, students living in quarters furnished by schools, colleges or universities, to persons temporarily subleasing a customer's residential premises, or to tenants living in retirement complexes.
- b. Except as otherwise provided in this tariff, service furnished by the Company is intended only for communications in which the customer has a direct interest and shall not be used for any purpose for which a payment or other compensation shall be received by him from any other person, firm, or corporation for use, or in the collection, transmission or delivery of any communication for others. This prohibition shall not apply to Long Distance Message Telecommunications Service (LMTS) nor to a customer who is engaged as a communications common carrier in a public telegram message business, or overseas data message service,

- c. In view of the fact that the customer has exclusive control of his communications over the facilities furnished him by the Company, and of the other users for which the facilities may be furnished him by the Company, and because of unavailability of errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the terms, conditions, and limitations herein specified.

2.2.2 Establishment of Identity

- a. The calling party shall establish his identity in the course of any communication as often as may be necessary.

2.2.3 Customer-Provided Terminal Equipment and Customer-Provided Communications System

Customer-Provided terminal equipment may be used and customer-provided communications systems may be connected with the facilities furnished by the Telephone Company for telecommunications services as provided in section 15 of this Tariff.

2.2.4 Miscellaneous Devices Provided by the Customer

- a. The provisions of 2.2.3 preceding shall not be construed or applied to bar a customer from using devices which serve his convenience in his use of the facilities of the Company in the service for which they are furnished under this tariff, provided any such device so used would not endanger the safety of Company employees or the public; damage, required change in or alteration of, or involve direct electrical connection to the equipment or other facilities of the Company; or interfere with the proper functioning of such equipment or facilities; or impair the operation of the telephone system or the teletypewriter system or otherwise injure the public in its use of the Company's services.

The provisions of 2.2.3 preceding shall not apply to the broadcasting of a recording of a telephone conversation during the period of recording provided that, in the interest of protecting the privacy of telephone service, the recording is made in accordance with the regulations governing connection with customer-provided voice recording equipment as specified in this tariff.

2.2.6 Recorded Public Announcements

- a. Use of Company Facilities or service in connection with automatic answering service, automatic answering and recording service, recorder-coupler service or miscellaneous devices for recorder public announcements are subject to the following conditions:
  - (1) For purposes of identification, customers to telephone service who transmit recorded public announcements over facilities provided by the Company must include in the recorded message the name of the organization or individual responsible for the service and the address at which the service is provided, unless the address of the organization or individual named in the announcement is shown in the currently distributed telephone directory.
  - (2) Private telephone numbers will not be furnished for use with recorded public announcements.
  - (3) Failure to comply with provisions of this tariff shall be cause for termination of service.

The service is furnished subject to the condition that it will not be used for an unlawful purpose. Service will be discontinued if any law enforcement agency, acting within its apparent jurisdiction, advises in writing that such service is being used in violation of the law. The Company will refuse to furnish service when it has reasonable grounds to believe that such service will be used in violation of the law.

2.2.10 Cancellation of Service for Cause

- a. The Company may without notice either suspend service or terminate the customer's contract without suspension of service or following a suspension of service, disconnect the service and remove any of its equipment from the customer's premises upon:
- (1) Abandonment of the service.
  - (2) Failure of a customer to make suitable deposit as required by this tariff.
  - (3) Impersonation of another with fraudulent intent.
  - (4) Listening in on party line conversations.
  - (5) Non-payment of any sum due for exchange, long distance or other services.
  - (6) Use of service in such a way as to impair or interfere with the service of other customers; such improper use includes, but is not limited to, the use of telephone service by a customer or with his permission in connection with a plan or contrivance to secure a large column of telephone calls, to be directed to such customer at or about the same time which may result in preventing, obstructing, or delaying the telephone service of others.

2.3 Establishment and Furnishing of Service

2.3.1 Availability of Facilities

*Charles W. Bell*  
EXECUTIVE DIRECTOR

- a. The Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense suitable facilities and rights for the provisions of such service.
- b. The rates and charges quoted in this tariff provided for the furnishing of service and facilities where suitable facilities are available or when the construction of the necessary facilities does not involve excessive costs.
- c. When excessive costs are involved for the construction of facilities, charges for such construction will be determined in accordance with the regulations as set forth in Section 5, "Charges Applicable Under Special Conditions," except as otherwise specified.

2.3.2 Party Line Service

- a. Applications for party line service are accepted by the Company with the understanding that each customer will use the service as to not interfere with the equitable proportionate use of service by the other customer on the same line.

2.3.3 Application of Service

- a. Any applicant for service may be required to sign an application form requesting the Company to furnish the service in accordance with rate, charges, rules and regulations from time to time in force and effect.
- b. The Company reserves the right to refuse service to any applicant who is found to be indebted to the Company for service previously furnished until satisfactory arrangements have been made for the payment of all such indebtedness. The

c. If telephone service is established and it is subsequently determined that either condition in b. above exists, the Company may suspend or disconnect such service until satisfactory arrangements have been made for the payment of the prior indebtedness.

d. When an application for service and facilities or requests for additions, rearrangements, relocations or modifications of service are canceled in whole or part prior to completion of work involved, the applicant is required to reimburse the Company for all expenses incurred in handling the request before notice of cancellation is received. Such charge, however, is not to exceed all charges which would apply of the work involved in complying with the request had been completed.

Any costs due to a rearrangement of equipment caused by a suspension off a portion of a service will be borne by the customer.

e. When equipment has been ordered for the specific needs of a customer and the installation thereof is unduly delayed by or at the request of the customer, applicable charges as specified in Section 5.3 apply for such equipment for the period of the delay.

f. 2.3.5 Transfer of Service between Customers

- a. Service previously furnished one customer may be assumed by a new customer upon due notice of cancellation, or in case of abandonment, provided there is no lapse in the rendition of service. Such transfers are subject to service connection charge regulations and may be arranged for in either of two ways:
  - (1) If a new customer, fully understanding the regulations governing the service and the status of the amount, willingly assumes all obligations thereunder, future bills are then rendered to him without an adjustment to or from any particular date, with the Company arranging for the requested change in billing and directory listings.
  - (2) If the new customer does not wish to assume payment of the old account a new service application is taken and an adjustment in billing is made to and from the date the transfer is effective.
- b. Under either method of transfer the reassignment of the old telephone number the service of a new party is arranged for only after the former customer has given his consent to its use, and then only when, in the judgment of the Company, there exists no relationship, business or otherwise, between the old and new customers, and when in the judgment of the Company a change in the telephone number is not required.
- c. When a relationship does exist, business or otherwise, between the old and new customer, the reassignment of the old

GENERAL REGULATIONS

2.3 Establishment and Furnishing of Service (Cont'd) (d)

2.3.9 Provision and Ownership of Directories

Telephone directories distributed from time to time by the Company, remain the property of the Company and shall not be mutilated and shall be surrendered upon request. No binder, holder, insert or auxiliary cover or attachment of any kind not furnished by the Company shall be attached to the directories owned by the Company, except that this prohibition shall not apply on a customer-provided binder, holder, insert, or auxiliary cover which is not so attached as to impede reference to essential service information or otherwise interferes with service.

2.3.10 Provision and Ownership of Telephone Numbers

Telephone numbers are property of the Company and are assigned to the service furnished the customer. The customer has no property right to the telephone number or any other call number designation associated with services furnished by the company, and no right to the continuance of service through any particular central office. The Company reserves the right to change such numbers, or both, assigned to the customer, whenever the Company deems it necessary to do so in the conduct of its business.

2.3 Establishment and Furnishing of Service (Cont'd)

2.3.12 Company Facilities at Hazardous or  
Inaccessible locations.

Where service is to be established at a location that would involve undue hazards, or where accessibility is impracticable to employees of the Company, the customer may be required to install and maintain the Company's equipment and facilities in a manner satisfactory to the Company, and remuneration to be based on the conditions involved.

2.3.13 Worked Performed Outside Regular Working Hours

The rates and charges specified in this tariff contemplate that work in connection with furnishing or rearranging service be performed during regular working hours. Whenever a customer requests that work necessarily required in the furnishing or rearranging of his service be performed outside the Company's regular working hours or that once begun be interrupted, so that the Company incurs costs that would not otherwise have been incurred, the customer may be required to pay, in addition to the other rates and charges specified in this tariff, the amount of additional costs incurred by the Company as a result of the customer's special requirements.

2.3.14 Termination of Service

a. Termination of Service by the Company

- (1) Violation of any regulations contained in this tariff on the part of the customer may be regarded as sufficient cause for termination of the customer's service.

2.4.1 Advance Payments (Cont'd)

- b. The amount of any advance payment collected is credited to the subscriber's account after service is established.
- c. In addition to the advance payment specified in the preceding paragraph, an applicant for telephone service (the furnishing of which involves an unusual installation expense) may, if it is deemed necessary by the Company in safeguarding its interests, be required to make an advance payment of such proportion of the estimated cost as is to be borne by the applicant in addition to such service connection charges as are applicable.
- d. The amount of any advance payment collected because of unusual installation expense is credited to the applicant's account as applying against the construction or installation charge. If the amount of such advance payment collected is in excess of the proportion of such costs to be borne of the applicant, the amount of excess is either returned to the customer or credited to his account.

2.4.2 Deposits

- a. The Company may, in order to safeguard its interest, require an applicant for or customer to its services to make a suitable deposit to be held by the Company as a guarantee of the payment of charges. Any such deposit may be held during the continuance of the service as security for the payment of any and all amounts occurring for the service.

### GENERAL REGULATIONS

#### 2.4 Payment Arrangements and Credit Allowances (Cont'd)

##### 2.4.3 Payment for Services (Cont'd)

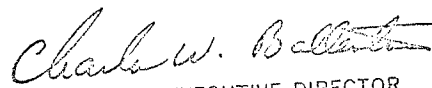

- g. In its discretion, the Company may restore or reestablish service which has been suspended or disconnected for nonpayment of charges, prior to payment of all charges due. Such restoration or reestablishment shall not be construed as a waiver of any rights to suspend or disconnect service for non-payment of any such or other charges due and unpaid or for the violation of the provisions of this tariff; nor shall the failure to suspend or disconnect service for nonpayment if any past due account or accounts operate as a waiver or estoppel to suspend or disconnect service for nonpayment if such account or of any other past due account.

##### 2.4.4 Allowances for Interruptions

When the use of service furnished by the Company is interrupted due to any cause other than the negligence or willful act of the customer or the failure of the facilities provided by the customer, a pro rata adjustment of the fixed monthly charges involved will be allowed, upon request of the customer, for the service rendered useless and inoperative by reason of the interruption continues in excess of twenty-four hours from the time it is reported to or detected by the Company, except as otherwise specified in this tariff. For the purpose of administering this regulation, every month is considered to have thirty days.

2.5 Liability of Company

2.5.1 Service Irregularities

The liability of the Company for damages arising out mistakes, omissions, interruptions, delays, errors or defects in transmission or failures or defects in facilities furnished by the Company, occurring in the course of furnishing service or other facilities and not caused by the negligence of the customer, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistakes, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.

The Company shall not be liable for damage arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission or other injury, including but not limited to injuries to persons or property from voltages or currents transmitted over the service of the Company, (1) caused by customer-provided equipment (except where a contributing cause is the malfunctioning of a Company-provided connecting arrangement, in which event the liability of the Company shall not exceed an amount equal to a proportional amount of the Company billing for the period of service during which such mistake, omission, interruption, delay, error, defect in transmission or injury occurs), or (2) not prevented had Company-provided equipment been used.

2.5.2 Use of Facilities of Other Connecting Carriers

When suitable arrangements can be made, facilities of other connecting carriers may be used in conjunction with this company's facilities. Neither this company nor any connecting carrier participating in a service shall be liable for any act or omission of any other company or companies furnishing a portion of such service.

### BASIC LOCAL EXCHANGE SERVICE

#### 3.10 Lifeline Program

##### 3.10.1 General

- A. The Lifeline program is designed to increase the availability of telecommunications services to low income subscribers by providing a credit to monthly recurring local service for qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC's Order on Universal Service in CC Docket No. 97-157, which adopts the Federal-State Joint Board's recommendation in CC Docket No. 96-45, which complies with the Telecommunications Act of 1996. Specific terms and conditions are as prescribed by the South Carolina Public Service Commission and are as set forth in this tariff.
- B. Lifeline is supported by the federal universal service support mechanism.
- C. Federal baseline support of eight dollars and twenty-five cents (\$8.25) is available for each Lifeline service and is passed through to the subscriber. An additional three dollars and fifty cents (\$3.50) credit is provided by the Company. Supplemental federal support of one dollar and seventy-five cents (\$1.75), matching one half of the Company contribution, will also be passed along to the Lifeline subscriber. The total Lifeline credit available to an eligible customer in South Carolina is thirteen dollars and fifty cents (\$13.50). The amount of credit will not exceed the charge for local service, which includes the access line, the Subscriber Line Charge and local usage.

##### 3.10.2 Regulations

###### A. General

- 1. Customers eligible under the Lifeline program are also eligible for connection assistance under the Link-Up program.
- 2. One low income credit is available per household and is applicable to the primary residential connection only. The named subscriber must be a current recipient of any of the low income assistance programs identified in Section 3.10.2.B. following.

##### 3.10.2 Regulations (Cont'd)

##### A. General (Cont'd)

3. A Lifeline customer may subscribe to any local service offering available to other residential customers. Since the Lifeline credit is applicable to the primary residential connection only, it may not be applied to multiple lines in a package for local service.
4. Toll blocking, if elected, will be provided at no charge to the Lifeline subscriber.
5. No deposit will be required of a Lifeline customer who subscribes to toll blocking. If a Lifeline customer removes toll blocking prior to establishing an acceptable credit history, a deposit may be required. When applicable, advance payments will not exceed the connection and local service charges for one month.
6. Neither the Federal Universal Service Charge nor the South Carolina Intrastate Universal Service Surcharge will be billed to Lifeline customers.
7. A Lifeline subscriber's local service will not be disconnected for non-payment of regulated toll charges. Local service may be denied for non-payment of local calls in accordance with Section 2. Access to toll service may be denied for non-payment of regulated tolls. A Lifeline subscriber's request for reconnection of local service will not be denied if the service was previously denied for non-payment of toll charges.
8. At no time shall a customer's Lifeline rate go below zero.
9. Bundles, Foreign Exchange and Temporary Suspension of Service are not available to Lifeline customers. Lifeline customers may select comparable residential services instead of bundled service packages.

B. Eligibility

1. To be eligible for a Lifeline credit, a customer must be a current recipient of any one of the following low income assistance programs.
  - a. Temporary Assistance to Needy Families (TANF), previously known as AFDC.
  - b. Food Stamps
  - c. Medicaid
2. All applications for service are subject to verification with the state agency responsible for administration of the qualifying program.

C. Certification

1. Proof of eligibility in any of the qualifying low income assistance programs should be provided to the Company within 30 days of application for service. The Lifeline credit will not be established until proof of eligibility has been received by the Company. When eligibility documentation is provided, the Lifeline credit will be provided on a going forward basis.
2. The Company reserves the right to periodically audit its records, working in conjunction with the appropriate state agencies, for the purpose of determining continuing eligibility. Information obtained during such audit will be treated as confidential information to the extent required under State and Federal laws. The use or disclosure of information concerning enrollees will be limited to purposes directly connected with the administration of the Lifeline plan.
3. When a customer is determined to be ineligible as a result of an audit, the Company will contact the customer. If the customer cannot provide eligibility documentation within 60 calendar days, the Lifeline credit will be discontinued.

SERVICE CHARGES

4.1 Definitions

- a. Service charges of a nonrecurring nature are as follows:
- (1) Service connection charge - a nonrecurring charge applying to the establishment of basic telephone service for a customer and subsequent discontinuance of each service.
  - (2) Installation charge - a nonrecurring charge applying to the provision of certain items of equipment or facilities as distinguished from the service connection charge applicable for establishment of basic telephone service. The installation charge is normally associated with optional service features and may sometimes be called an "initial" charge.
  - (3) Inside move charge - a charge applying to a transfer of telephone service from one location to another on the same premises where there is no interruption of the service other than is incident to the work involved. Transfers of telephone service from one premises to another, or from one location to another on the same premises involving a break in continuity of service resulting in a cessation of local service charges, are not considered as inside moves, but as new service connections and are provided for subject to the regular termination charges, if any, and service connection charges or installation charges, or both, that may be applicable.
  - (4) Change charge - A charge applying when a customer requests a change of telephone number.

4.2 Service Connection Charges

4.2.1 Application of Charges

- a. Except as provided hereinafter, the following services are subject to service connection charges:
  - (1) All classes of main station service
  - (2) (d)
  - (3) Centrex Stations
  - (4) (d)
  - (5) PBX Trunks
  - (6) Tie lines
  - (7) Toll terminals
- b. Where the service desired necessitates the use of more than one item of service subject to a service connection charge, the total charge is the sum of the separate service connection charges for each item of service furnished except as hereinafter provided.
- c. Service connection charges do not apply in connection with changes in customer's service when the service connection charge applicable to the service desired by the customer does not exceed the service connection charge applicable to his existing service. In case the service connection charge applicable to the service desired by the customer does not exceed the service connection charge applicable to his existing service, the customer pays the excess amount.

5.1 Construction Charges

5.1.1 General

*Charles W. Bell*

EXECUTIVE DIRECTOR

- a. Special charges in the form of installation charges, monthly charges, or both, are applied in addition to the usual service connection charges and monthly rates, when, because of the occasional nature of the service of the unusual investment or expense, the revenue does not reasonably compensate the Company, as for example:
  - (1) The facilities are provided on a temporary basis.
  - (2) Conditions require the provision of special equipment or unusual methods of plant construction, installation, or maintenance.
  - (3) The customer's location requires the use of costly right-of-way.
- b. Title to all construction, provided wholly or partly at a customer's expense, is vested in the Company.
- c. The word "cost," when used in this Section, means the implant cost consisting of labor, engineering, materials, supervision, and other overhead expenses associated with the construction. Estimated cost will be used; however, where the customer requests, actual cost will be used where practicable.
- d. When attachments are made to poles of other companies in lieu of providing new pole line construction for which construction charges would be applicable under the provisions of this Section, the attachment rental charges to the company for such attachments may be assessed to the applicant's in whole or in part as the particular circumstances may warrant.

- f. When an applicant is so located that it is necessary to use private right-of-way to furnish service and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the cost incurred in securing, clearing, and retaining such right-of-way.
- g. Construction charges will not apply to the customer's station installation which includes the aerial drop which extends from the last pole to the building in which the telephone is located.
- h. No construction charge is applicable for the provision of construction on public highways or other easements within the base rate area, or beyond the base rate when such construction is to be used in serving customers with the grade and class of telephone service normally offered in a given area.

5.1.2 Construction on Private Property

JAN 19 1988

a. Pole Line Construction

- (1) No construction charge is made for the provision of new pole line construction on private property, either within or without the base rate area, when such pole line is to be used in serving customers in general. Ownership and maintenance of such poles on private property is vested in the Company.
- (2) Except as provided in (1) foregoing and (3) following, poles on private property will be furnished by the Company at a charge to the customer(s) equal to the cost of each such pole; however, the Company will furnish as many as two poles without charge per customer(s) provided that the poles thus furnished are used to carry central office

(3) Where for the purpose of furnishing lines, it is necessary to lay underground conduit, to trench, or to set the poles on the customer's premises, the customer is required to provide and install such underground conduit, to dig and backfill trenches, and to provide and erect such poles or the Company will perform the work at the customer's expense. Where the work is performed by the customer, it must be in accordance with the specifications of the Company. In such situations, conduit, trenching, poles or other supporting structure required for central office circuits will be furnished by or at the expense of the customer. Thus, ownership and maintenance of all supporting structure on private property is vested in the customer.

(4) Where poles are provided inside the base rate area under the provisions described in (1) and (2) preceding, the Company will furnish and maintain the necessary circuits. In case poles are provided on private property outside the base rate area, the necessary circuits will be furnished and maintained by the Company; however, the customer may be required to bear all or a part of the construction cost of the circuits where the revenue is not expected to be sufficient to insure, within a reasonable time, an adequate return on the necessary investment. 5.3 Special Service Arrangements

- a. Where practicable, special equipment and arrangements, not otherwise provided for in this tariff, are furnished if they are in accord with authorized service offerings and if they are to be used in connection with and not detrimental to any of the service furnished by the Company. Charges for such special service arrangements will be based on the estimated costs of furnishing them, such costs to consist of the following items to the extent they are applicable:
- (1) Cost of maintenance.
  - (2) Cost of operation.
  - (3) Depreciation on the estimated cost installed of the facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.
  - (4) Administration and taxes on the basis of reasonable average charges for these items.

DIRECTORY LISTINGS

6.1 Regulations Applicable to Directory Listings

- a. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory and the directory assistance records. Listings are indented solely for the purpose of identifying customer's telephone numbers and as an aid to the use of the telephone service.
- b. The listing of customers wither without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. In accepting listings as requested by customers or prospective customers the Company will not be a party to controversies between customers as a result of the publication of such listings in its directories.
- c. Listings must conform to the Company's specifications with respect to its directories. The Company reserved the right to reject listings when in its judgment such listings would tend to delay or impede the use of the service.
- d. The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its judgment the clearness of the listing and the identification of the customer is not impaired thereby.
- e. Except as hereinafter provided only one listing is furnished without charge for each main service, joint user service, PBX system or Centrex System; where a number of main services are provided on a rotary basis they are considered as one service. If additional listings may be provided without charge to the extent that the number of listings allowed does not exceed the number of main station lines or PBX trunks associated with that service. Directory listings showing the appropriate Centrex station number may be furnished indented under the main listing or additional listings at the charge for additional listings. Such listings may be specific departments, locations or titles of key personnel.

9.1 Foreign Exchange Service

9.1.1 Regulations

*Charles W. Ballentine*

EXECUTIVE DIRECTOR

- a. Foreign exchange service is exchange main service or extension therefrom furnished to a customer from an exchange other than the one from which he would normally be served.
- b. Foreign exchange service is offered in connection with flat rate individual line main service and flat rate PBX service only.
- c. Other services, equipment or facilities used in connection with foreign service, except as otherwise indicated in this tariff, are furnished subject to rates and regulations applying in connection with other classes of service.
- d. Foreign exchange service is furnished subject to the same restrictions as to the use of the service by other than the customer and his representatives, as apply in connection with other classes of service.
- e. Normally, all negotiations for the establishment of foreign exchange service will be initiated by the prospective customer with the exchange from which he normally is served.
- f. When the foreign exchange from which service is requested has other exchanges in its local calling area, the Telephone Company shall determine from which of the exchanges service will be furnished. Mileage charges as set forth in 9.1.2a. (1) and (2) would apply from the exchange from which service was requested.
- g. A customer receiving Foreign Exchange Service may be required to subscribe to local service from the exchange from which he would normally be served.

*Charles W. Ballentine*

9.1.2 Rates and Charges (Cont'd)

EXECUTIVE DIRECTOR

- (4) For the distance from the Central Office of the exchange from which the customer would normally receive service, to the applicant's location, a mileage charge of \$3.50 per route circuit mile or fraction thereof for the first mile, and \$1.00 per quarter mile or fraction thereof, after the first miles, will apply.
- (5) The local service area of, and long distance rates to and from main stations or PBX system connected for Foreign Exchange Service are the same as regularly apply to stations located in the Foreign Exchange area.
- (6) The rate center of an exchange is the point from which message toll telephone rates are measured.
- (7) The company may require toll restriction of each Foreign Exchange service whereby calls may only be completed within the Foreign Exchange from which service is desired and its calling area.

b. Foreign exchange service may be furnished involving two areas of the Company or involving an area of the Company and an area of a connecting company when the connecting company is willing to concur in the arrangements for furnishing such service. In those cases where a portion of the service is furnished by a connecting company, the rates and regulations of the connecting company apply to the part of the exchange service it furnishes. Where the connecting company furnishes a portion of the inter-exchange facilities and -

- (1) Concurs in the interexchange rates and regulations of this Company in 9.1.2,a., preceding, the mileage measurement and mileage charges will be as indicated in 9.1.2,a.

### 11. Hargray Prepaid Local Service (Prepaid Residential Telephone Service)

#### 11.1 Description of **Hargray Prepaid Local Service** (N) (Prepaid Residential Telephone Service)

11.1.1 **Hargray Prepaid Local Service** is available to any customer of the Company that has been disconnected for non-payment of their telephone service or has not established a satisfactory credit relationship with the Company and wishes to obtain residential telephone service.

11.1.2 **Hargray Prepaid Local Service** is subject to the general terms and conditions for other local exchange service as referenced in the Company's General Customer Services Tariff. In situations where the terms and conditions in other sections of this Tariff differ from terms and conditions in Tariff Section 11, terms and conditions of this Tariff Section 11 shall apply.

#### 11.2 Regulations Pertaining to **Hargray Prepaid Local Service** (N)

11.2.1 The Company shall take reasonable steps to make **Hargray Prepaid Local Service** available to all eligible customers consistent with the Company's general practices and procedures and this Tariff.

11.2.2 The customer shall upon acceptance of the terms and conditions of the service, pay for the first month's service and applicable service establishment charges as referenced in S. 11.3 of this tariff by cash, money order, or credit card.

11.2.3 Customer deposits will not be required as a prerequisite for provision of this service to the customer.

11.2.4 Complete toll restriction is required and will be available at no additional charge to **Hargray Prepaid Local Service** customers. Also restricted with the service is Directory Assistance, 0+, inbound collect, third-number-billed calls and Measured Extended Area Service. Included in the service is the Company's Local Service Plus (unlimited, flat-rated Extended Area Service).

11.2.5 The customer shall remit payment for **Hargray Prepaid Local Service** in advance of the next billing cycle for each month that the customer wishes to retain their service. A customer payment shall be considered received upon receipt and posting to the customer's account. In the event that a customer's payment for the service is not received in advance of the first day of the new billing period, the Company may, without any liability, disconnect the customer's service.

CENTRAL OFFICES NON-TRANSPORT SERVICE OFFERINGS

12.9 Direct Inward Dialing (DID) Service (Continued) (N)

12.9.4 Direct Inward System Access (DISA) (N)

- A. This Centrex feature allows the outside callers to access network facilities by dialing directly into the DMS 100 without attendant assistance. The caller dials a 7-or 10- digit number (or an INWATS number for an automatic answer), then enters an authorization code and the called number. A customer would typically use this feature for making long distance calls away from the office using their less expensive business long distance lines.

DISA calls are from outside the customer group. Therefore, if the called number is a station directory number, completion to the station is subject to terminating restrictions.

B. DISA directory number can be any of the following: (N)

- (1) A seven-digit number assigned to DISA(Class 5)
- (2) A Direct Inward Dialing (DID) number received on a DID trunk group (PBX)
- (3) An INWATS number assigned to DISA (Class 5)
- (4) An incoming trunk group dedicated to DISA (the DMS 100 detects seizure and ringing; the trunk group must provide disconnect supervision)
- (5) Digits received on a tie trunk (the DMS translate the digits received into a DISA directory number. The tie trunk can be one-way incoming trunk or a two-way incoming trunk. The trunk group must provide disconnect supervision.

MISCELLANEOUS SERVICE ARRANGEMENTS

13.1 Extension Service

13.1.1 General

- A. Extension service provides the capability (T) of originating or receiving calls from locations in addition to the location of the main access line. Charges for extension service are payable for each such additional extension service location.
- B. Extension service will be provided in (T) connection with classes of access service, excluding public telephone service. Extension service will be provided by the customer without dials or coin collectors in connection with semipublic telephone service for the exclusive use of the customer for answering purposes only and must be located in the same room or within view of the main access line.
- C. Extension service must be located on (T) same premises of the customer on which the main access line is located and are restricted to the use of the customer, his representatives and associates or to members of the customer's immediate family or domestic establishment; except that in the case of individual line customer's service, extension service may be located on other premises provided facilities are available and technical equipment limitations in each specific case permit and provided that residence extension service is not located on business premises.

13.2 Extension Service Line Mileage

13.2.1 General

a. The basic rates for extension service are (T)  
for such lines which are located on the  
same premises as the main access line. In  
the case of access line extensions located  
on different premises and for other circuit  
extensions of similar character, extension  
line mileage charges are applicable as set  
forth below, in addition to the basic  
rates.

b. Where supporting structure is necessary (T)  
for the purpose of furnishing extension  
service on the customer's premises, such  
supporting structure is furnished by the  
customer as provided for in Section 5.

c. When it is known or realizes that the (T)  
life of all or a part of the outside  
circuit extensions will be shorter than  
the normal life of the plant or the cost  
of providing the plant is such as to  
render inadequate the mileage charges  
quoted herein, the plant required to  
furnish such service will be provided on  
the basis of one of the following plans at  
the option of the customer.

(1) An installation charge and a reason-  
able and proper monthly carrying  
charge in lieu of mileage. Under  
this plan, where a portion of the  
facilities must be replaced at a  
later date due to having served its  
useful life, installation charges  
apply to the replacing facilities as  
if such facilities were installed new  
and appropriate adjustments are made

### 13. MISCELLANEOUS SERVICE ARRANGEMENTS

#### 13.7 Remote Call Forwarding (N)

##### 13.7.1 Description of the Service (N)

- A. Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (the call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the RCF customer (the terminating station).

##### 13.7.2 Limitations (N)

- A. Remote Call Forwarding service is offered subject to availability of suitable facilities.
- B. RCF service is not offered where the terminating number is a coin telephone.
- C. The Company does not guarantee identification of the originating telephone number to the Remote Call Forwarding customer.
- D. Transmission quality may vary depending on the distance and routing necessary to complete a call. Since RCF service "tandems" two calls into one call, normal transmission quality is not assured for calls forwarded via RCF. Nonetheless, the resulting transmission performance will generally meet the RCF customer's voice-grade needs. Service arrangements which tandem more than two calls into one are more likely to result in unacceptable transmission quality; therefore, the Company will not knowingly forward calls via RCF to another telecommunications service arranged for permanent call forwarding. This policy can be administered only at the time RCF is ordered, and applies only in the forwarding direction. The services to which RCF calls are forwarded are provided independent of the RCF service and may not be within the Company's jurisdiction. Further, such services can be changed subsequent to the provision of an RCF service. Consequently, it is impractical to assure that such increased tandem forwarding never occurs. Where the Company is aware of such a service configuration, it reserves the right to modify such arrangements. Modifications may include, but are not limited to, changing the associated forwarded-to number or termination of the RCF service. The RCF customer will be responsible for normal tariff charges for such changes.
- E. Remote Call Forwarding is not represented as suitable for satisfactory transmission of data.
- F. Remote Call Forwarding is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company. If, in the opinion of the Company, additional Remote Call Forwarding features at the call forwarding location or facilities at the terminating station line are needed, the customer will, where appropriate, be required to subscribe to such additional RCF features and facilities. In the event the customer refuses to

subscribe to such additional RCF features and facilities, said customer's RCF service shall be subject to termination.

- G. When the Call Forwarding number is to be located in a Multi-office exchange, the Company will determine the serving central office. Remote Call Forwarding will be provided for local calling where the RCF telephone number and the terminating station are both located in the same exchange. Further, Remote Call Forwarding will be provided for local calling on an interexchange basis in those instances where the exchange serving the RCF telephone number and the exchange serving the terminating station have the identical local calling area, or are within an Extended Area Service arrangement as specified in Section 3. of this Tariff. All other calls will be sent-paid (1+) only.
- H. Where a business directory listing is provided for the RCF number, calls will not be forwarded to a Company-provided telephone service for which residential rates apply.
- I. Where calls are to be forwarded to telephone service other than that of the RCF subscriber, it shall be the responsibility of the RCF subscriber to obtain permission for such forwarding from the subscriber to the other service and to determine a mutually acceptable number of access paths, the Company reserves the right to modify the RCF service to the extent necessary to eliminate the other subscriber's complaint. The RCF subscriber shall be responsible for the tariff charges for any resulting rearrangement of the RCF service.

13.7.3 Directory Listings

One listing in the Alphabetical Section of the Directory covering the exchange in which the call forwarding Central Office is located is provided without additional charge.

13.7.5 Message Charges

The message charges applicable to remotely forwarded calls shall be comprised of two separate charges: (1) a charge for that portion of the call from the originating Station to the call forwarding location, and (2) a charge for that portion of the call from the call forwarding location to the terminating station. The respective charge for each such portion shall be as follows:

1. Between the originating station and call forwarding location:

The charge for this portion of a remotely forwarded call shall be the charge specified in this or any other applicable Tariff for the type of call involved.

2. Between the call forwarding location and the terminating station:

The Remote Call Forwarding customer is responsible for the applicable Local Measured Service usage charges as specified in 3.9 of this Tariff or for the applicable customer-dialed station-to-station charges specified in this or any other applicable Tariff. These charges apply to all calls answered At the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

- a. Upon request, a subscriber to business or residence service may arrange for the temporary suspension of such service. Suspension of service is available on a subscriber's complete service or on such portion thereof as can be suspended.
- b. When the period of suspension is less than one month, the regular charges for the full month of service shall apply.
- c. When a complete service, or portion thereof which can be suspended, is subject to an initial service period of more than one-month, the basic termination charge applicable thereto will be reduced at one-half the normal full rate of reduction while the service is on a suspended basis and the initial service period is extended by one-half month for each month of suspension.
- d. In connection with complete suspension of service, local or long distance service is not furnished during the period of suspension. At the request of the subscriber, inward calls to a station at which service is suspended may be referred to the call number of another station in the same or distant exchange.
- e. The charge for the total suspension period may be collected in advance.
- f. There is no reduction in the charge for foreign central office line mileage and foreign exchange line mileage during the period of suspension.
- g. In connection with service at a concession rate, the charge for service during the period of suspension is 50 percent of the rate regularly charges for service without concession, except in case the concession is 50 percent or more, then the charge during the period for suspension is the rate regularly charged for the concession service.

#### 13.15 Custom Calling Service

##### 13.15.1 Description

- a. Custom Calling Services are auxiliary features provided in addition to basic telephone service which will be available to subscriber in certain exchanges.
- b. Custom Calling Services consists of the following features:
  - (1) Call Forwarding – This provides an arrangement for transferring incoming calls to another telephone number by dialing a code and the number of the service to which calls are to be transferred. This must be a local or EAS number.
  - (2) Three-Way Calling – This permits an existing call to be held, and, by dialing, a second telephone call can be established and added to the connection. This service contemplates that normal transmission performance quality cannot be guaranteed on all calls.
  - (3) Call Waiting – By means of a tone signal a customer who is using his telephone is alerted when other caller is trying to reach that station. Permits putting first call on hold so that the second call can be answered. Customers must also subscribe to Cancel Call Waiting. (N)
  - (4) Speed Calling – This provides for the calling of a 7 – or 10 – digit telephone number by dialing an abbreviated code. The two arrangements available are an eight number capacity (8-code) and a thirty-number capacity (30-code).
  - (5) Cancel Call Waiting – This allows a customer to temporarily disable the call waiting feature. This feature permits uninterrupted call data transmissions on a per call basis.
  - (6) Call Forwarding Remote Access – This feature enables a customer to activate, deactivate or change Call Forwarding settings remotely from any line/equipment capable of Touch-Tone signaling rather than only from the base station line. Customers must also subscribe to Call Forwarding. The service must be initialized from the base station line, then can be used at will from any remote Touch-Tone line by dialing an access number in the local area of the base station line and entering an authorization code.

13.18 711 DIALING CODE FOR TELEPHONE RELAY SERVICE (TRS) (N)

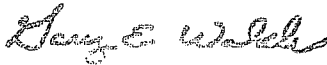

13.18.1 General (N)

- A. 711 Dialing Code ("711") is a three digit local dialing arrangement for telephone voice transmission access to all relay service entities as a toll free call. Pursuant to Order 00-257, issued by the Federal Communications Commission (FCC) in CC Docket 92-105, the 711 dialing code is assigned for nationwide access to TRS entities, to be implemented not later than October 1, 2001.
- B. 711 is available from HARGRAY TELEPHONE COMPANY, INC. in HARGRAY TELEPHONE COMPANY, INC. Territory only.
- C. This service is subject to the availability of the 711 dialing code.
- D. 711 can be delivered via regular exchange access lines (by individual business lines, PBX trunks, etc.).
- E. Limitations and use of service as stated in Section 2.2 of this Tariff apply.
- F. Directory Listings may be provided for 711 at rates and regulations as specified in Section 3 of this Tariff.
- G. Access to 711 is not available to the following classes of service:
  - Hotel/Motel/Hospital Service (toll call only)
  - 1+

- H. The TRS entity is restricted from selling or transferring the 711 dialing code to an unaffiliated entity, either directly or indirectly.
- I. An "affiliate" of a TRS entity is any entity that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, the TRS entity. The term "control" (including the terms "controlling", "controlled by", and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an entity, whether through the ownership of voting securities, by contract, or otherwise.

##### 13.18.2 Service Requirements and Conditions (N)

- A. Requests for 711 Dialing Code must be submitted in writing to the South Carolina Public Service Commission, for the assignment of the 711 code.
- B. Once the 711 Dialing Code has been assigned and the subscriber has provided the Company the appropriate toll free number, implementation of the 711 Dialing Code will begin on or after April 30, 2001. The Company will implement the TRS entity's request within a reasonable time, given the complexity of the order.

If, during or at the end of the provisioning period, the TRS entity has failed to establish service or decides to discontinue service establishment, the 711 code will be recalled and the number will be considered available for reassignment as specified in A. preceding.

- C. The TRS entity must, prior to provisioning of the service, sign a written acknowledgement of possible recall of the 711 dialing code by the FCC and an agreement to return the code upon receipt of 6 months written notice of such a recall from the Company or regulating entity and abide by all terms and conditions which may be identified by the FCC in CC Docket 92-105 regarding the use and return of the 711 dialing code. Smart\*Star Service consists of the following features.

13.19.2 Definitions of Feature Offerings (N)

A. Call Return (N)

This feature enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call.

If the called line is not busy, the call is placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next 30 minutes, both the calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed.

This feature is not available on operator handled calls. In connection with Call Return, the Company will deliver all numbers subject to technical limitations, including telephone numbers associated with Non-Published Listing Service.

When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern (short, long, short). Calls from telephone numbers that are not included on the screening list will produce a normal ring.

If the customer subscribes to Selective Call Waiting and a call is received from a telephone number on the Call Selector Screening list while the line is in use, the Call Waiting tone will also be distinctive.

When a telephone number on the Call Selector screening list also appears on the Selective Call Forwarding list, the Selective Call Forwarding will take precedence.

Selective Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to thirty-one (31) numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Selective Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list.

If the customer also subscribes to Selective Call Rejection and the same telephone number is entered on both screening lists, the Selective Call Rejection feature must be deactivated to allow the call to forward.

13.19.2 Definitions of Features Offerings (Cont'd) (N)

D. Selective Call Forwarding (Cont'd)

This feature will not work if the calling line is not referenced to and originated by the main telephone number or a Telephone Number identified number that represents all the lines in a collection of lines such as multi-line hunt groups.

E. Selective Call Rejection (N)

This feature provides the customer the ability to prevent incoming calls from up to thirty-one (31) different telephone numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive his call at this time.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified.

F. Customer Originated Trace (N)

Customer Originated Tracing enables the customer to initiate an automatic trace of the last call received.

Upon activation by the customer, the network automatically sends a message to the Telephone Operating Company indicating the calling number, the time the call was received, and the

Only calls from within the same Smart\*Star Service capable area are traceable using Customer Originated Trace.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified.

If the customer makes or receives another call after hanging up from the annoying call, prior to activating the trace, Customer Originated Call Trace will not record the correct number.

###### G. Caller ID/Caller ID NND (Number and Name Delivery) (C)

- a. The Caller ID feature enables the customer to view on a display unit the Directory Number (DN) on incoming telephone calls. (C)

When Caller ID is activated on a customer's line, the Directory Numbers of incoming calls, also date and time, are displayed on the called CPE during the first long silent interval of the ringing cycle.

Any customer subscribing to Caller ID will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactory with the network features described herein.

If the incoming call is from a caller served by a PBX, only the main number of the PBX is transmitted and available for display.

If the incoming call originates from a multi-line hunt group, the telephone number transmitted will always be the main number of the hunt group. Caller ID is not available on operator-handled calls.

This feature enables customers to prevent the transmission of their Directory Number on all outgoing calls placed from the customer's line. Caller ID Blocking is in operation on a continuous basis. A service order is required to establish or remove this feature. This feature blocks calling number dialing on all calls without the necessity of dialing a code with each call.

Caller ID Blocking is provided to all subscribers on a per call basis at no charge. To activate this feature there must be a two (2) digit code dialed prior to placing a call. Caller ID Blocking on per line basis is available. See paragraph 13.19.3 for rates.

If the Company and the agency cannot reach an agreement on such a request the agency must submit the matter to the South Carolina Public Service Commission for deliberation on the matter.

**I. Personal Ringing (Formerly known as Teen Service) (C)**

This service allows subscribers to have up to three (3) additional telephone numbers assigned to their line that will alert the subscriber whether the incoming call is a single line business call, or personal for another family member, by means of unique call waiting tones. A distinctive ringing pattern will be provided for each of the additional telephone numbers to facilitate identification of incoming calls. A distinctive Call Waiting tone for each additional telephone number will be provided, where facilities permit, to a customer subscribing to Call Waiting services. No special wiring or additional telephone equipment is required. This service enables the residential subscriber or the single line business to have up to four different directory numbers assigned to the single line residential/business service. (C)

Service is available only to single line business customers and individual line residence. Personal Ringing may not be compatible with all types of customer-provided telephone equipment. (C)

13.22.1 General

- A. 811 Dialing Service ("811") is a three digit local dialing arrangement, available in specified areas, with Hargray Telephone Company, Inc. for delivery of general information via voice grade facilities, the Utility Protection Center, Call-Before-You-Dig program. Pursuant to Order 05-59, issued by the Federal Communications Commission (FCC) in CC Docket 92-105, the 811 code is assigned for access to one call centers. In addition, the 811 subscriber must comply with any orders and rules pertaining to 811, adopted by the FCC in rulemaking proceeding CC Docket 92-105.
- B. 811 is available in Hargray Telephone Company, Inc. Local Calling Area only. To provide access to an 811 number to end users in the local calling area of another local exchange carrier or to a competitive local exchange carrier's (CLEC's) end users within the local calling area, the 811 subscriber must make appropriate arrangements with the other local exchange carrier or CLEC.
- C. The Local Calling Area of the 811 subscriber will be the basic local calling area for the Company's exchange as defined in Section 3 of this Tariff, as facilities permit.
- D. This service is furnished subject to the availability of the 811 number.
- E. 811 can be delivered via regular exchange access lines (by individual business lines, PBX trunks, etc) or a 10-digit toll free number.
- F. Limitations and use of service as stated in Section 2 of this Tariff apply.
- G. Directory Listings may be provided for 811 at rates and regulations as specified in Section 6 of this Tariff.
- H. Access to 811 is not available to the following classes of service:
- Payphone Service Provider Telephones (PSPs)
  - Hotel/Motel/Hospital Service
  - 1+
  - 0+, 0- (Credit Card, Third-Party Billing, Collect Calls)

The 811 subscriber must, prior to provisioning of the service, sign a written acknowledgement of possible recall of the 811 number by the FCC and an agreement to return the code upon receipt of 6 months written notice of such a recall from the Company and abide by all terms and conditions contained in Order 05-59 issued, any subsequent rules which may be identified by the FCC in CC Docket 92-105 regarding the use and return of such 811 codes. If a recall is effected, the Company will work with all 811 subscribers affected by such recall to transfer their service arrangements, to a 7 or 10 digit dialing arrangement within the 6 month notice period. The 811 subscriber will be required to migrate to any standard access arrangement for information services subsequently agreed to by the industry and approved by the FCC. The 811 subscriber will be charged the appropriate tariff rates for the establishment of the new access arrangement.
- D. Only one 7 or 10-digit local number or one 10-digit toll free number may be used as the lead number per basic Local Calling Area. All central offices within a basic Local Calling Area must be pointed to the same 7 or 10-digit local number or one 10-digit toll free number. Appropriate rates from Sections 3 and 4, of this Tariff will apply.
- E. The 811 Dialing Service is provided where facilities permit.

13.22.2 Service Requirements and Conditions (Cont'd)

F. 811 will be provided under the following conditions.

1. For network sizing and protection, the 811 subscriber must provide an estimate of annual call volumes, the expected busy hour and holding time for each call to 811.
2. The customer will subscribe to adequate telephone facilities initially and subsequently as may be required, in the judgment of the Company, to adequately handle calls to 811 without impairing the Company's general telephone service or telephone plant. It will be the intent of the Company to provide facilities designed to provide a call blocking probability of one call per hundred during normal busy hours 811 Dialing Service.
3. The 811 subscriber is responsible for obtaining all necessary permission, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performance are used in connection with the service, and from all holders of copyrights, trademarks, and patents used in connection with said service.
4. The 811 subscriber shall be liable for, and shall indemnify, protect, defend and save harmless the Company against all suits, actions, claims, demands and judgments, and of all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connection therewith, including, but not limited to, any loss, damage, expense or liability resulting from any infringement or claim of infringement, of any patent, trademark, copyright, or resulting from any claim of liable and slander.
5. Suspension of 811 Dialing Service as covered in Section 2 of this Tariff is not applicable for this service.
6. The 811 subscriber shall respond promptly to any and all complaints lodged with any regulatory authority against any service provided via 811. ### MISCELLANEOUS SERVICE ARRANGEMENTS

#### 13.23 211 DIALING SERVICE

(N)

##### 13.23.1 General

- A. The 211 dialing code (hereinafter referred to as "211") is a three-digit dialing arrangement designed specifically for the delivery of general information via voice grade facilities, for community information and referral services. Pursuant to order 00-256, issued by the Federal Communications Commission (the FCC) in CC Docket 92-105, the 211 code is assigned for access to community information and referral services. In addition, the 211 subscriber must comply with any order and rules pertaining to 211, adopted by the FCC in rulemaking proceeding CC Docket 92-105.
- B. The 211 dialing code is available from the company in the company's exchange area only. To provide access to a 211 dialing code to end users in another telephone company territory or to another telephone provider end users within the local calling area, the 211 subscriber must make appropriate arrangements with the telephone provider or other provider serving the territory. The 211 subscriber should work separately with competing local providers to determine that its end users will be able to reach community information and referral services provided by dialing 211.
- C. This service is subject to the availability of the 211 dialing code and the technical capability of the serving central office.
- D. The 211 dialing code can be delivered via regular exchange access lines.
- E. Limitations and use of service are stated in section 2 of this tariff.
- F. The local calling area of the 211 subscriber will be the Local Calling Area as defined by the company at the time the 211 code is ordered, as facilities permit. If the calling areas are merged, and a 211 number exists in both areas, the 211 subscriber who established the 211 service first in time will be entitled to retain the 211 number in the merged calling areas.
- G. Directory listings may be provided for 211 at rates and regulations as specified in Section 6 this tariff.
- H. The 211 subscriber is restricted from selling or transferring the 211 dialing code to an unaffiliated entity, either directly or indirectly.

### MISCELLANEOUS SERVICE ARRANGEMENTS

#### 13.23 211 DIALING SERVICE (Cont'd)

(N)

##### 13.23.1 General (Cont'd)

- I. A "211 subscriber" is defined as any entity that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, the 211 subscriber. The term "control" (including the terms "controlling", "controlled by", and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of any entity, whether through the ownership of voting securities, by contract, or otherwise.
- J. Operator assisted calls to the 211 code will not be completed.
- K. Access to the 211 dialing code is not available to the following classes of service:
  - 1+
  - 0+,0- (credit card, third-party billing, collect calls)
  - 101XXXX
  - Inmate service
  - Cellular
  - Hotel/motel/hospital service (toll call only)

##### 13.23.2 Conditions for Utilization

- A. Requests for utilization of the 211 dialing code must be submitted in writing to the South Carolina Budget Control Board, consistent with applicable state law for the assignment of the 211 code.
- B. Within 30 days of the number assignment, the 211 subscriber must initiate the request for service. The company will provision the subscriber's order within a reasonable time, dependent upon the given complexity of the order. The 211 subscriber will be billed the nonrecurring charge when the service is provisioned by the company.
- C. If, during or at the end of the provisioning period, the 211 subscriber has failed to establish service or decides to discontinue service establishment, the 211 code will be recalled and the number will be considered available for reassignment as specified in A. preceding.

### MISCELLANEOUS SERVICE ARRANGEMENTS

#### 13.24 511 DIALING SERVICE

##### 13.24.1 General

- A. 511 Dialing Service ("511") is a three digit local dialing arrangement, available in specified areas, with Hargray Telephone Company, Inc. for delivery of general information via voice grade facilities, the South Carolina Department of Transportation Travel Information Services program. Pursuant to Order FCC 00-256, issued by the Federal Communications Commission (FCC) in CC Docket 92-105, the 511 code is assigned for access to federal, state and local transportation agencies. In addition, the 511 subscriber must comply with any orders and rules pertaining to 511, adopted by the FCC in rulemaking proceeding CC Docket 92-105 or any subsequent dockets.
- B. 511 is available in Hargray Telephone Company, Inc. Local Calling Area only. To provide access to a 511 number to end users in the local calling area of another local exchange carrier or to a competitive local exchange carrier's (CLEC's) end users within the local calling area, the 511 subscriber must make appropriate arrangements with the other local exchange carrier or CLEC.
- C. The Local Calling Area of the 511 subscriber will be the basic local calling area for the Company's exchange as defined in Section 3 of this Tariff, as facilities permit.
- D. This service is furnished subject to the availability of the 511 number.
- E. 511 can be delivered via regular exchange access lines (by individual business lines, PBX trunks, etc.) or a 10-digit toll free number.
- F. Limitations and use of service as stated in Section 2 of this Tariff apply.
- G. Directory Listings may be provided for 511 at rates and regulations as specified in Section 6 of this Tariff.
- H. Access to 511 is not available to the following classes of service:
  - Hotel/Motel/Hospital Service
  - 1+
  - 0+, 0- (Credit Card, Third-Party Billing, Collect Calls)

**MISCELLANEOUS SERVICE ARRANGEMENTS**

13.24 511 DIALING SERVICE (Cont'd)

(N)

13.24.1 General (Cont'd)

- I. The 511 subscriber is restricted from selling or transferring the 511 number to an unaffiliated entity, either directly or indirectly except under direction of the Commission.
- J. An "affiliate" of a 511 subscriber is any entity that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, the 511 subscriber. The term "control" (including the terms "controlling", "controlled by: and under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an entity, whether through the ownership of voting securities, by contract, or otherwise. If a 511 subscriber becomes an affiliate of or is acquired by another 511 subscriber through merger, acquisition, or otherwise, then the affiliated subscribers must surrender all but one 511 number within 6 months of the merger or acquisition.
- K. 511 will not provide calling number information in real time to the 511 subscriber. If the 511 subscriber needs this type of information, the 511 subscriber must subscribe to a compatible Calling Name/Number Delivery service in Section 13.19 preceding.
- L. Calls to a disconnected 511 number will be routed to intercept of the announcement facilities for a maximum of 60 days, when the 511 provider is a Company subscriber. The announcement provided may refer the caller to another telephone number.

13.24.2 Service Requirements and Conditions

- A. All requests for 511 must be submitted in writing to the South Carolina Public Service Commission. The Commission will allocate 511 numbers in the basic Local Calling Areas based upon requirements and/or standards established by the FCC.
- B. The Company will provision the subscriber's order within a reasonable time, given the complexity of the order. The 511 subscriber will be billed the nonrecurring charge when the service is provisioned by the Company.

The 511 subscriber must, prior to provisioning of the service, sign a written acknowledgement of possible recall of the 511 number by the FCC and an agreement to return the code upon receipt of 6 months written notice of such a recall from the Company and abide by all terms and conditions contained in Order 00-256 issued, any subsequent rules which may be identified by the FCC in CC Docket 92-105 regarding the use and return of such 511 codes. If a recall is effected, the Company will work with all 511 subscribers affected by such recall to transfer their service arrangements, to a 7 or 10 digit dialing arrangement within the 6 month notice period. The 511 subscriber will be required to migrate to any standard access arrangement for information services subsequently agreed to by the industry and approved by the FCC. The 511 subscriber will be charged the appropriate tariff rates for the establishment of the new access arrangement.
- D. Only one 7 or 10-digit local number or one 10-digit toll free number may be used as the lead number per basic Local Calling Area. All central offices within a basic Local Calling Area must be pointed to the same 7 or 10-digit local number or one 10-digit toll free number. Appropriate rates from Sections 3 and 4, of this Tariff will apply.
- E. The 511 Dialing Service is provided where facilities permit.

- a. Customer-provided terminal equipment and communications systems may be used with the facilities of the Company for telecommunications services as provided in the following paragraphs of this Section. In all such cases the customer-provided terminal equipment or communications systems will be so constructed, maintained and operated as to work satisfactory with the facilities of the company.
- b. Customer-provided accessories may be used with the facilities furnished by the Company for telecommunications service provided that such accessories comply with provisions specified in 15.1d and 15.1h
- c. Where the use of any customer-provided terminal equipment as specified in this tariff involves direct electrical connection to the facilities furnished by the Company such connection shall be made through a connecting arrangement, at charges specified in this and other sections of this tariff, furnished, installed and maintained by the Company except as provided below:
  - (1) Customer-provided protective circuitry or terminal equipment may be connected at the customer's premises to facilities furnished by the Company for use with exchange telecommunications Commissions Rules and Regulations.
  - (2) Direct electrical connection of customer-owned equipment is not permitted on a coin telephone service or party line service.
  - (3) The customer shall notify the Company of his intention to connect registered or grandfathered protective circuitry or terminal equipment in advance of such connection and shall notify the Company when such protective circuitry or terminal equipment is permanently disconnected. The customer shall provide the Company the registration number and ringer equivalence number for the protective circuitry or terminal equipment.

- d. Where telecommunications service is available under this tariff for use in connection with customer-provided terminal equipment or communications systems, the operating characteristics of such equipment or system shall be such as not to interfere with any of the service offered by the Company. Such use is subject to the further provisions that the customer-provided equipment or system does not endanger the safety of Company employees or the public damage, require change in or alteration of, the equipment or other facilities of the Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the telecommunications system or otherwise injure the public in its use of the Company's services. Upon notice from the Company that the customer-provided equipment or systems is causing or is likely to cause such hazard of interference the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer shall be responsible for the payment of Company charges, as specified in 15.4, for visits by the Company to the customer's premises where a service difficulty or trouble report results from the customer-provided equipment or system.
- e. The Company shall not be responsible for the installation, operation or maintenance of any customer-provided terminal equipment or communications systems. Telecommunications service is not represented as adapted to the use of customer-provided terminal equipment or systems and where such are connected to Company facilities the responsibility of the Company shall be limited to the furnishings of facilities suitable for telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunications service subject to this.

- The company shall not be responsible for (1) the through transmission of signals generated by the customer-provided equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided equipment or systems.
- f. The Company shall not be responsible to the customer or otherwise if changes on the criteria outlines herein or in any of the facilities, operations or procedures of the Company render any customer-provided equipment or communications systems obsolete or required modification or alteration of such equipment or systems or otherwise affect its use or performance.
- g. The Company will not be responsible for any loss of or damage, nor for any impairment or failure of the service, arising from or in connection with the use of facilities of customers and not caused solely by the negligence of the Company.
- h. Satisfactory performance of the telecommunications network requires continuing functional compatibility of the network control signals and the switching equipment involved. To assure such continuing compatibility, network control signaling in the furnishing of telecommunications service shall be performed by equipment furnished, installed and maintained by the Company.
- i. Where any customer-provided equipment or system is used with telecommunications service in violation of any of the provisions in this tariff, the Company will take such immediate action as necessary for the protection of the network and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or system or correct the violation and shall confirm in writing to the Company within 10 days, following the receipt of written notice from the Company, that such use has ceased or that the violation has been corrected.

### 18.1 General Information

The Carrier provides the customer operator service on a per call surcharge basis. In addition to the per call service charge, applicable usage rates may apply. The Carrier's operator services are accessible on a 24 hour per day seven days a week basis.

When customers request assistance in obtaining telephone numbers of subscribers who are located outside their LATA, but within the State of South Carolina, the charges set forth apply.

The use of the Carrier's Operator Services allows the customer to select from the special call handling or billing arrangements specified below. Call rates and applicable service charges will be assessed to the call originator, the called party's telephone number or a third party's telephone number based upon the call type (i.e., operator dialed or collect) initiated by the call originator and the appropriate acknowledgement of other parties, where applicable.

- (1) Station to Station
- (2) Person to Person
- (3) Third Party Billed
- (4) Calling Card Billed
- (5) Property Access Surcharge

### 18.2 Operator Station-to-Station and Person-to-Person

- a. Operator Station-to-Station rates apply to station-to-station telephone communication where the completion of the call or a request for any information or assistance relating to billing or charges for such call requires the assistance of an operator, except for operator services used in connection with dial type telephone communication as noted below.
- (1) Re-establish a call which has been interrupted after the called number has been reached.
  - (2) Reach the called telephone number where facilities are not available for customer dial completion.
  - (3) Record the originating telephone number where no automatic recording equipment is available.
  - (4) Place a call for a calling party who identifies himself/herself as being visually or physically disabled and unable to dial the call due to the disability.
- b. Customer Dialed Calling Card rates apply to Station-to-Station telephone communication where the person originating the call dials and completes the call without the assistance of an operator, except that an operator will record the credit card number, or where the operator reaches the called telephone number where facilities are not available for dial completion.
- c. Person-to-Person rates apply where the person originating the call specifies to the operator a particular person to be reached, or a particular station, department, or office to be reached through a PBX attendant.

SHARING AND RESALE OF EXCHANGE SERVICE

23.1 Sharing and Resale of Basic Local Exchange Service (N)

23.1.1 General (N)

- a. In general, basic local exchange service is furnished for the exclusive use of the customer, and the customer's family, guest, employee, agents or representatives. Resale of basic local exchange service is permitted only under the specific conditions described in this tariff. For the purpose of this tariff section, "sharing" of basic local exchange service is considered synonymous with "resale" of basic local exchange service.

23.1.2 Conditions for Resale (N)

- a. Resale is permitted where facilities permit and within the confines of specifically identified continuous property areas under the control of a single owner or ownership unit. Areas designated for resale may be intersected or transversed by public thoroughfares provided that the adjacent property segments created by intersecting or transversing thoroughfares would be continuous in the absence of the thoroughfare. The designated resale service area must be wholly within the confines of existing wire centers and/or exchange boundaries.
- b. Customers desiring to resell or share Company provided local exchange services must provide the Company with a written description of the project's intended size and scope along with layout maps defining the resale service area and an anticipated development plan in terms of new building construction and/or projected growth.
- c. Resale configurations may not exceed a combined total of 500 Automatic Access Lines (Inward, Outward and/or Two-Way configurations).
- d. The Company maintains the right to serve directly any subscriber, within the identified resale service area.

SHARING AND RESALE OF EXCHANGE SERVICE

23.1 Sharing and Resale of Basic Local Exchange Service (Cont'd)

23.1.2 Conditions for Resale (Continued) (N)

In order to fulfill the Company's obligation to provide local exchange service to the premises of all customer entities within a franchised area, including individual subscribers within a resale area, the Company generally installs and maintains its own facilities within the resale service area to reach the premises of each individual subscriber. At the Company's option, in lieu of Company-owned facilities, the Company may choose to utilize privately-owned distribution facilities, including purchasing or leasing such facilities from the customer. Resale services will only be established if such access is provided to the Company.

- e. Intercom calling between reseller clients located within an identified resale service area is permitted to the extent that such calling is privately beneficial without being publicly detrimental.
- f. Private interconnection of a resale service area to any other resale service area is not permitted for resale or sharing purposes. Individual tie lines or private lines are restricted to the private use of a single subscriber or resale client and cannot be used to access Local Exchange Service.
- g. All rates and charges in connection with the resale operation and all repairs and rearrangements behind and including the resellers communication switch will be the responsibility of the customer of record and is not regulated by the South Carolina Public Service Commission. The reseller will be the single point of contact for all resale client services provided in connection with the Sharing and Resale of Basic Local Exchange Service.
- h. A combination of flat and Local Measured Service is available where the flat rate service is used

#### 25 ISDN - Integrated Services Digital Network (N)

##### 25.1 General (N)

- A. ISDN is a new group of offerings supported by the Integrated Services Digital Network (ISDN) architecture. ISDN supports simultaneous transmission of voice, data, and packet services on the same exchange access line. ISDN is available where facilities permit.
- B. ISDN provides a new method of access to the telephone network called **Basic Rate Access (BRA)**. **Basic Rate Access** will consist of one or two 64 Kbps (**B**) channels and one 16 Kbps (**D**) channel at the service delivery point.
- C. **B** channel circuit switched services offer up to 64 Kbps transmission of voice or data. This option permits the customer to utilize either circuit voice or data transmission paths on a per call section basis. Transmission on the **B** channel will be circuit switched at 64 Kbps within the switch and/or equipped facilities between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices will be potentially subject to analog transmission or subject to 56 Kbps. This option includes one directory number (DN).
- D. The following parameters may be provided with Packet Switched **B** channel and **D** channel Services:

Each **B** channel packet terminal will be provided logical channels up to the technical capability of the serving central office. Each logical channel can carry an independent call with throughput of up to 64 Kbps.

Each **D** channel packet terminal will be provided logical channels up to the technical capabilities of the serving

- \* One-Way Outgoing Switched Virtual Circuit

1. Flow Control Parameter Negotiation - This parameter negotiates on a per call basis the flow control parameters. This consists of automatic negotiation of the maximum packet size and window size for each direction of data transmission.
2. Throughput Class Negotiation - This parameter allows the calling station to request specific throughput classes in the call request packet for both directions of data transmission.
3. Recognized Private Operation Agency (RPOA) Selection - This parameter allows an ISDN user to specify an interLATA carrier (IC) for packet-switching on a per-call basis when the customers want if different from presubscribed IC.

### ISDN - INTEGRATED SERVICES DIGITAL NETWORK

#### 25 ISDN - Integrated Services Digital Network (Continued)

##### 25.5 ISDN - Basic Rate Interface

Basic Rate Interface (BRI) is an optional service arrangement which can be used in conjunction with a customer's Individual Line Business or Residence Service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission, and switching of voice, data, and video services via channelized transport. In addition, BRI provides the customer with access to Circuit Switched Voice Service, Circuit Switched Data Service and Packet Switched Data Service.

A BRI arrangement obtains its capabilities from a properly equipped telephone company central office switch. The BRI arrangement consists of two "B" channels and one "D" channel (2B+1D).

All ISDN Service Lines consist of central office facilities, including the outside plant facilities, extended form the Company's switching equipment to the customers demarcation point. ISDN Service is provided at the option of the Company and is furnished subject to central office switching capacity and the availability of outside plant facilities. The availability, functionality and capabilities of the ISDN Service may vary or may not be available dependent upon type of serving central office switch, related software controlling that switch and associated outside plant.

The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ISDN Service render any facilities provided by the Customer obsolete or require modification or alteration of such customer's equipment or systems, or otherwise affect its use or performance.

##### 25.5.1 Service Description

( T )

Circuit Switching - Circuit Switching is a switching technique in which an entire circuit or, in a digital switch equipped for ISDN, a specific selection of time slots is dedicated to a given call. Circuit Switched Service provides the ability to originate and receive circuit switched voice, data and voice/data calls over 64 Kbps "B" Channel.

Clear Channel Capability - A characteristic of the transmission paths on the "B" Channels that allows the full bandwidth on the "B" Channel, 64 Kbps, to be available to the customer. However, ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 Kbps, provided the IXC offers Clear Channel for its Long Distance Calls.

##### 25.5.2 Technical Specifications

###### A. Transmission Specifications

(T)

The Standard Transmission parameters for an ISDN Service line utilizing an ISDN Basic Rate Interface (BRI) consists of: A maximum of 38.5db loop loss at a 40Kz test tone terminate into a 135 ohm impedance. The 38.5db loss includes all central office facilities, outside plant facilities and inside wiring.

###### B. Customer Premise Equipment and Facilities

The customer is responsible for providing compatible premises equipment in order to utilize the ISDN offering. All customer-provided equipment used to interface with ISDN Service is required to conform with the National ISDN Standards.

The Company shall not be responsible if changes in any of the equipment, operations or procedures of the Company utilized in the provision of ISDN Service render any facilities provided by the customer obsolete or require modification or alternation of such equipment or system, or otherwise affect its use or performance.

###### C. Special Construction

An average amount of entrance and distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service. If additional entrance or distribution facilities are required, if conditions are such as to require special equipment, if installation is for temporary or semi-permanent purpose or if for any other reason the construction costs are excessive, the applicant shall be required to pay the costs over and above those applicable for a normal installation. Each special construction situation will be evaluated on an individual case basis.

#### 25.6 Primary Rate Interface (PRI)

(N)

Integrated Services Digital Network (ISDN) is a public network-based set of communications services that make it possible to send, receive, and modify information using regular telephone facilities. ISDN provides end-to-end digital communications and gives the ability to transmit data and voice over the same telephone line simultaneously. This functionality is provided via channelized transport facility. The ISDN architecture provides F or Primary Rate Interface (PRI) which is typically used when a customer wants to connect large quantities of digital lines to the network.

### ISDN - INTEGRATED SERVICE DIGITAL NETWORK SERVICE

#### 25 ISDN - Integrated Service Digital Network ( Continued)

##### 25.6 Primary Rate Interface (PRI) (Continued) (N)

ISDN-PRI uses the ISDN architecture to provide the customer with the capability to transmit voice and data simultaneously over the same digital facility. Under various optional arrangements, PRI provides the customer with access to Circuit-Switched Voice Services and Circuit-Switched Data Services.

##### 25.6.1 Primary Rate Interface (PRI) Service Arrangement (N)

1. An ISDN-PRI arrangement connects an ISDN-capable Telephone Company central office switch to ISDN - capable customer premise equipment (CPE). Depending on the application, that CPE might be a PBX, a router, a multiplexer, etc. The PRI ISDN arrangement provides a total of twenty-four digital communications channels within a single physical facility. Twenty- three of these channels are called Bearer, or B, channels and they carry the actual voice data. Another channel, called the Delta, or D, Channel is used to transport signaling for the other 23 channels. This configuration is known as 23B+D.
  - a. B Channel - The B Channel is a bi-directional synchronous channel capable of supporting digital transmission speeds of 64 kilobits per second (Kbps). Each B Channel of a PRI may carry:
    - (1) Circuit-Switched Voice
    - (2) Circuit-Switched Data
  - b. D Channel - The D Channel is a 64 kbps digital signaling channel that carries signaling and control for the B Channels.
2. Primary Rate Access Facility - The Primary Rate Access Facility provides a high capacity digital link over which the Primary Rate services are delivered This facility is based on a 1.544 Mbps DS1 carrier (T1 facility).
3. Multiple PRI Arrangement - There may be situations where more than 23 B Channels are needed at a particular customer premise. In those situations, multiple PRI facilities can be assigned to a PRI arrangement. With the multiple PRI arrangement the D channel in the first PRI facility is used to transport signaling to additional PRI facilities. The first PRI would be configured as 23B+D and the other PRIs would be configured as 24B. This use of the Non-Facility Associated Signaling (NFAS) allows the overhead of the D Channel to be distributed over multiple PRI facilities thereby increasing channel efficiency.

##### 25.6.2 Circuit Switch Service Descriptions

(N)

Circuit Switching is a switching arrangement in which an entire circuit or B Channel is dedicated to a given call. The circuit is connected on a per Call basis and can carry circuit-switched voice or circuit-switched data. Circuit switched related services include:

1. Clear Channel Capability - A characteristic of the transmission paths On the "B" channel that allows the full bandwidth on the "B" Channel, 64 kbps, to be available to the customer. However, ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 kbps.
2. Dedicated Trunk Groups - The B Channel of a PRI can be dedicated For calls to and from the public network: Incoming, outgoing, 2-way, Direct Outward Dialing (DOD) or Direct Inward Dialing (DID).
3. Primary Rate Call-By-Call Service - The Primary Rate Call-By-Call (CBC) feature offers access to additional services such as :

Features  
Tie Trunks  
InWATS  
OutWATS

via the B Channels of an ISDN-PRI. With this feature, any B Channel on the PRI can be used to offer the above services on a per-call basis in addition to trunk calls to/from the public network (i.e., DOD/DID).

4. Multiple Directory Numbers - Each PRI includes an individual directory number. Additional directory numbers, a range of directory numbers, or several ranges of directory numbers can be optionally added.
5. Advanced Calling Services - ISDN-PRI can support access to the Following Advanced Calling Services (also called ROLAS Services) from suitably equipped CPE:

(N)

1. Transmission Specifications - The Primary Rate Access Facility provides a high capacity digital link over which the Primary Rate services are delivered. This facility is based on a 1.544 Mbps DS1 carrier (T1 facility) whose characteristics are as follows:

Line Code	=	Bipolar 8 Zero Substitution (B8Zs)
Framing Format	=	Extended Super Frame (ESF)
Signaling	=	Q.931 Signaling
Data Rate	=	64 Kbps clear or kbps restricted
D Channel	=	24 <sup>th</sup> channel on the T1 facility

2. Customer Premise Equipment (CPE) and Facilities Compatible CPE is required to utilize ISDN-PRI. All equipment used to interface with these services is required to conform with National ISDN standards.

The Telephone Company shall not be responsible if changes in any of the equipment, operations or procedures of the Company utilized in the provisioning of ISDN services render any facilities provided by the customer obsolete or require modification of such equipment or system, or otherwise affect its use or performance.

##### 25.6.4 Regulations and Conditions

(N)

1. Unless specifically exempted, ISDN services shall be subject to all General regulations applicable to the provision of service by the Telephone Company as stated in the general tariff.

SECTION 25  
ORIGINAL PAGE 16

### **S25. BRI for Residential Services (BRI-R)**

#### **S25.7.1 General**

- A. BRI-R (BRI functionality for Residential subscribers) mirrors the functionality of Integrated Services Digital Network ("ISDN") Base Rate Interface (BRI) supporting simultaneous transmission of two (2) voice conversations without utilizing an additional local loop facility.
- B. Provides capability to receive and make calls simultaneously by providing two telephone numbers.
- C. Available as residential service only. Cannot be combined with or offered as a business service.
- D. Signal may be provided with circuit or packet switching.
- E. Service is available at the discretion of the Company and is subject to operating limits and capabilities of existing facilities.
- F. By definition, the service will always be part of a bundle including at least two local exchange service lines.
- G. Subscriber line charges do not apply to second line. ISDN port charges do apply to the total service in addition to one subscriber line charge. All mandatory fees and additional service options apply.

#### **S25.7.2 Regulations**

- A. Customer Premises Equipment (CPE) that is compatible with BRI

## **GENERAL CUSTOMER SERVICES TARIFF**

**S25. BRI for Residential Services (BRI-R)**

**S25.7.2 Regulations (Continued)**

residential service is the responsibility of the user for provisioning.

- B. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provisioning of BRI render any facilities provided by the customer obsolete or require modification or alteration of such equipment or system or otherwise affect its user or performance.
- C. Service charges in Section 3 (S3) of this Tariff are applicable per BRI in addition to rates and charges following.
- D. BRI-R offered only where facilities permit.

**S25.7.3 Definitions**

(Reserved for future use)

**S25.7.4 Rates and Charges**

- A. Rates and charges shall be the same as those specified in Section 3.2.1 (S3.2.1) of this Tariff.
- B. Except as discussed in this section, rates charged for BRI-R lines shall be as if they were purchased independently from each other except that the company may at its sole discretion offer bundled discounts.
